# Welcome!

This summer we have even more students joining us from various universities and programs. Here's a little bit about some of our visitors, and be sure to welcome them!

**Alicia** just graduated from the University of California Los Angeles a major in Global Studies, with a focus on international policy and economics. On Guam, she is learning about social movements and native justice, while doing research with the Haya Foundation. She enjoys cooking, hiking, going to the beach, and shopping.

**David** is from Spain, and he is here this summer researching Guam's current political systems. He is also interested in Micronesian studies, so David enjoys any opportunity he can get to converse with Chamorro people.
